AGNES SCOTT COLLEGE

Location and History

AGNES SCOTT is a liberal arts, non-sectarian college for women with an enrollment averaging five hundred. It is located in Decatur, Georgia, about one mile from the city limits of Atlanta.

The College was organized in 1889 as Decatur Female Seminary, with Dr. Frank H. Gaines chairman of the board and later the first president. In 1890 it was chartered as Agnes Scott Institute in honor of the mother of Colonel George W. Scott, a benefactor of the institution. It was chartered as Agnes Scott College in 1906. At the same time, Agnes Scott Academy was organized and offered preparatory work until its discontinuance in 1913.

Purpose

The purpose which has prevailed at Agnes Scott since its founding has been to offer the best possible educational advantages under positive Christian influences. It is the aim of the College to prepare Christian women to be a power in blessing the world and glorifying God.

The College was founded by Presbyterians, and its moral standards and religious life conform as nearly as possible to those of that church. It is not controlled or supported by the church, however, and special care is taken not to interfere in any way with the religious views or church preferences of students.

The College offers the Bachelor of Arts degree. Optional courses leading to this degree give each student the opportunity to elect a course most in accord with her special talents and plans.

Financial Resources

The assets of the College amount to more than \$6,500,000, divided almost evenly between endowment funds and buildings, grounds, and equipment.

Educational Affiliations

In 1907 the College was admitted to membership in the Southern Association of Colleges and Secondary Schools. In 1920 it was placed on the approved list of the Association of American Universities. It was a charter member of the American Association of University Women and of the Southern University Conference.

Honor Societies

The College was granted a charter by the United Chapters of Phi Beta Kappa in 1926. Elections are based primarily on academic standing. In 1932 the College was granted a chapter of Mortar Board, which emphasizes service and leadership.

University Center

While Agnes Scott is a privately controlled liberal arts college, it is also a part of a larger group of institutions which form the University Center in Georgia. In the group are Emory University, Georgia Institute of Technology, the University of Georgia at Athens, Columbia Theological Seminary, Atlanta Art Association, and Agnes Scott College. Chief features of this cooperative program are reciprocity in library services, exchange of instructors, administration of grants for research, and the avoidance of duplication and overlapping in certain areas of instruction.

ADMISSION OF STUDENTS

AGNES SCOTT has a resident student capacity of approximately three hundred and fifty. Total enrollment, including resident and non-resident students, averages five hundred. Because enrollment is limited, admission is competitive and is based on the applicant's excellence of preparation, general ability and interests, character, personality, and health.

Applicants whose homes are not in the local community must apply for admission as resident (boarding) students. Exception may be made if they can live with close relatives. Applicants whose homes are in the local community may apply for admission as non-resident (day) students.

Absolute promise of acceptance cannot be given until complete records are filed in the Registrar's office. This is usually the middle or latter part of June. If applications are filed in the fall, it is possible to give rather definite information after the first semester grades are available. The College sends for these grades.

If a student has tentative acceptance at the end of the first semester and maintains a satisfactory standard of work throughout the remainder of the year, there should be no question regarding admission. This of course assumes satisfactory aptitude tests and medical report.

Correspondence regarding admission should be directed to the Registrar.

Admission to the Freshman Class

Criteria for judging admission qualifications include the secondary school record, scholastic aptitude test score, English test score, principal's recommendation, health re-

port, and additional personal data which the College secures.

Requirements

Agnes Scott believes that the preparatory school and the college share in the responsibility for educating the individual student and that an important part of this responsibility is the planning of a course which will facilitate the transition from school to college and provide continuity in the total program of study. The College does not attempt to prescribe the secondary school curriculum; it does believe that the subjects listed below provide the most adequate preparation for the liberal arts program, and preference will be given to applicants who present evidence of this preparation.

1. *Subjects.* Candidates are admitted as freshmen upon the presentation of sixteen acceptable units. One unit represents a year's study in a subject. The following are strongly recommended:

English: four units

Algebra: two units (unless the requirement is met in a shorter period)

Plane Geometry: one unit

Language: three units of Latin if a modern foreign language is not offered, or two units of Latin plus two units of a modern foreign language, or four units of modern foreign language

Elective units may be presented in Bible, biology, botany, chemistry, French, general science, geography, German, Greek, history(including civics and social science), Latin, mathematics, music (theory and literature), physics, Spanish, zoology. See section on Entrance Subjects for more complete descriptions.

Credit will not be given for less than two units in any one foreign language; and not more than four units will be accepted in any one subject. One vocational or semi-voca-

tional unit may be offered, or two in exceptional cases.

Students who do not meet the recommended foreign language requirement will be required to take an extra amount of language in college.

2. *Admission by Certificate.* Applicants who complete preparatory work in schools accredited by their regional association will be admitted by certificate from these schools. Their certificates must indicate satisfactory completion of entrance requirements not more than two years prior to the filing of the application for admission.

Procedure

1. *Formal Application.* The admission form will be furnished on request. It is recommended that the resident student application be filed in the fall preceding the session in which the student is interested. It must be accompanied by a registration fee of \$25.00, preferably in New York exchange or postal money order.

If the application is accepted, the above fee is credited on the September payment. It will be refunded on request on or before June 30 of the year of entrance. After that date it will not be refunded unless the preparation of the applicant is insufficient or unless the College finds it impossible to admit her.

Non-resident students are advised to apply not later than the spring preceding entrance in September. No registration fee is required.

2. *Secondary School Certificate.* Prospective applicants are urged to have sent during the junior year a preliminary statement of courses taken and grades made. Certificate form provided by the College should be used. This will enable the College to evaluate credits and offer advice on subsequent preparation. It does not obligate the student to apply for admission.

Prior to, or at the time of filing the application for admission, the student should request the preparatory school

to submit a transcript of courses and grades to date. Certificate blank provided by the College is to be used. No information regarding admission can be given until this record has been sent to the Registrar.

The College will secure from the preparatory school a statement of first semester and final grades.

3. *Scholastic Aptitude Tests.* Either the College Entrance Examination Board scholastic aptitude test or the Agnes Scott tests (scholastic aptitude and English) must be taken. Instructions regarding the Agnes Scott tests will be sent to applicants during the early part of the year. Information about the College Entrance Examination Board test may be secured by writing to the Board at Box 592, Princeton, New Jersey.

4. *Medical Report.* Blanks will be forwarded during the summer preceding entrance. The report should be returned promptly to the college physician. It will not be acknowledged by the physician unless some problem is presented.

5. *Assignment of Room.* Rooms are assigned by the Dean of Students. Applicants admitted with an early registration have a better choice of rooms than those who register late. Special requests regarding rooms or roommates should be filed very early.

Description of Entrance Subjects

ENGLISH

The requirement in English is designed to develop the ability to understand and enjoy good literature of various types and periods, and to think clearly and express oneself effectively in writing.

1. **LITERATURE.** The student will be expected to have a comprehension and appreciation of the content and form of some of the masterpieces in drama, poetry, and the principal types of prose (narrative, essay, and biography).

2. **COMPOSITION.** The student must show a reasonable maturity of

thought and the ability to organize and present her ideas clearly in terms of sentence, paragraph, and whole composition. Consistent correctness in the fundamentals of writing (including grammar) is assumed.

LATIN, GREEK

Students offering either Latin or Greek should have a thorough knowledge of all regular inflections and of the common irregular forms; familiarity with the ordinary syntax, vocabulary, and idiom of the authors read; and ability to use this knowledge in writing the language and in translation at sight.

1. **LATIN** (two, three, or four units). It is advised that at least one semester be devoted (1) in the second year to selections from Caesar, (2) in the third year, if prose is read, to at least three orations of Cicero, (3) in the fourth year, if poetry is read, to at least three books of Virgil's *Aeneid*.

2. **GREEK** (two or three units). Any systematic course which develops the ability to translate at sight passages of simple Attic prose and of Homer, and to write simple Greek.

FRENCH, GERMAN, SPANISH

Credit will be given for two, three, or four units. The student should be able to pronounce intelligibly, to read with understanding, and to use the language with increasing facility with each additional credit point offered. The goal should be reading and comprehending without translation into English, and free handling of the language in conversation and in theme work.

The fourth unit should give the cultural background and the literary appreciation necessary for admission to a course in literature.

MATHEMATICS

Two units in algebra (unless the requirement is met in a shorter period) and one unit in plane geometry are prescribed. In addition, one-half unit in solid geometry and one-half unit in trigonometry may be presented.

HISTORY

Total entrance credit in history, civics, and social science may not exceed four units.

SCIENCE

Total entrance credit may not exceed four units. Each of the following electives represents a year's study and should include a large amount of laboratory work: physics, chemistry, botany, zoology, biology, geography, general science.

MUSIC

One entrance credit in music theory and literature will be accepted on certificate. Entrance credit for practical music (including theory) is given by examination only.

BIBLE

The College will accept one unit in the Old or New Testament, or in the Old and New Testaments combined.

Admission to Advanced Standing

A limited number of students from other institutions may be admitted each year with advanced standing credit. Each applicant must fulfill the requirements for admission to the freshman class, using her transferred credits if necessary. She must present transcripts of her preparatory school and college records, a copy of the college catalogue with the courses taken indicated, and a letter of honorable dismissal. Because admission on this basis is limited, the College advises only those students to apply who have made strong records and who have followed a course corresponding to the Agnes Scott program.

Students considering a transfer from another college should consult the Registrar as early as possible.

Candidates for the degree must complete the work of the junior and senior years in this college. Exception is made only in unusual cases.

Admission of Special Students

A limited number of mature students who do not present acceptable entrance units and who are not candidates for the degree may be admitted to classes for which they are prepared. They will not be admitted as resident students.

Applicants who have not been in school for a period of two years or more will be classified as special students until credits are established by the quality of their work at Agnes Scott.

ADMINISTRATION OF THE CURRICULUM

Registration

STUDENTS reporting for admission in September go first to the Registrar's office, where they are registered and given matriculation cards. They then meet with the appropriate committees for classification. Students who have not paid fees in advance report to the Treasurer before going to the Registrar's office.

A student who fails to register in time to attend her first scheduled lecture at the beginning of the fall quarter is charged a late registration fee of \$5.00. A student returning late from Christmas vacation is also subject to this penalty unless her excuse is approved by the Dean of Students.

A student who fails to register before attending classes after the Christmas vacation is subject to the penalty of an unexcused absence in each class attended.

Selection of Courses

Students are expected to make themselves thoroughly familiar with the plan of the curriculum and to arrange their courses to conform with its requirements.

During the summer, students entering as freshmen indicate tentative course selection on forms provided by the College. These forms are returned to the Registrar's office and are approved or revised by the Committee on Courses for Freshmen. At time of entrance in September, freshmen meet with the Committee for definite course selection.

On or before April 15, all students in residence file with the Registrar cards indicating tentative course selection for the next session. These course cards are approved or revised by the Committee on Courses for Upper Classmen. At the time of classification in September, the cards are obtained from the Committee and presented to instructors for signa-

ture at the first meeting of each class. They are then returned to the Registrar's office.

A course of study which has been approved cannot be changed without the permission of the proper committee. Freshmen will consult the Committee on Courses for Freshmen. Sophomores, juniors, and seniors will consult the Committee on Courses for Upper Classmen.

All students must be definitely classified within two weeks after their arrival at college.

Class Attendance

Attendance at all academic appointments is required of freshmen during the first and second quarters, and of students on the ineligible list, and of students who for any reason are on probation. It is expected that other students will keep all academic appointments and will not be absent without just cause. The responsibility for any work missed because of absence rests entirely upon the student.

Attendance at tests announced a week in advance is mandatory. Attendance is required the day before and the day after a holiday.

Examinations

General examinations are held at the end of each quarter. Attendance is required. A student absent from examination because of illness may take the examination in question at the regular time scheduled for re-examinations (see below). A student absent without excuse from the Dean of Students or the physician is automatically excluded from college.

Re-examinations are permitted in the case of conditional failure. These examinations are given in the first week of the quarter following failure. Those failing in a re-examination are required to repeat the course or forfeit the credit.

A "special" examination is given only with the permission of the Dean of Students in response to a written request

from the student. This request must state why it is necessary to take the examination at a time other than that announced. If permission is granted, the student must present the Dean of Students' receipt for \$5.00 before the instructor is authorized to give the examination.

Credit Hours

Three quarters make up the college year. Credit for courses taken is given in terms of quarter hours. A course scheduled for three hours a week for one quarter will give a credit of three quarter hours toward the one hundred eighty quarter hours of academic work required for the degree. A course scheduled for three hours a week for the entire college year will give a credit of nine quarter hours toward the degree.

The quarter hour is mathematically equivalent to two-thirds of a semester hour.

Limitation of Hours

The maximum number of lecture or recitation hours a week for freshmen is sixteen and the minimum fourteen. With the permission of the Committee on Courses for Freshmen some students may carry only twelve hours.

The maximum number of lecture or recitation hours a week for advanced students is eighteen and the minimum fourteen. Second and third-year students will not be permitted to carry the maximum number unless they earned grades of C or above in at least two-fifths of their work for the preceding session. Fourth-year students will not be permitted to carry the maximum number unless they earned grades of C or above in at least one-half of their work for the preceding session.

Grading System

Grades indicating the student's standing in any course are

officially recorded as follows: *A*, excellent attainment; *B*, good attainment; *C*, average attainment; *D*, passable attainment; *E*, failure with privilege of re-examination; *F*, failure without privilege of re-examination.

For a statement of the grade requirements for class standing and for graduation, see section on Classification of Students and Requirements for the Degree.

Honors Program

Seniors who are qualified on the basis of their general college records may be admitted to an honors program. This program involves concentrated study in the major field and culminates in a thesis and in oral and written examinations. It carries three hours' credit for each quarter of the senior year. Through such a program the College believes that intellectual values not possible in the routine plan of courses may be achieved.

Students who complete the program successfully and whose general academic records are outstanding may, on the recommendation of their major departments, be approved by the faculty for graduation With Honor. Students who complete the program with distinction may be approved for graduation With High Honor.

Students who do not elect the honors program but whose general academic records are very exceptional may be recommended for graduation With Honor.

Summer Courses

Students may attend accredited summer schools. Courses and credits must be approved by the Dean of the Faculty before the close of the regular college session.

The number of hours a student may take in one summer session will depend upon the quality of her work at Agnes Scott, upon the length of the summer session, and upon the nature of the courses chosen.

Summer work will not be credited toward the degree unless the student makes a grade of C or above.

Only one-half of the hours earned in summer school may be used in determining classification.

A student who attends summer sessions in order to accelerate her academic program may present for the degree no more than the equivalent of a year's work done in residence.

Required Residence

Candidates for the degree must complete the work of the junior and senior years in this college. Exception is made only in unusual cases.

Automatic Exclusion

A student whose work is notably unsatisfactory at the end of any quarter may be asked to withdraw from the college or by vote of the faculty may be put on probation for the remainder of the year. If by the end of the session she has failed to earn at least twenty-two quarter hours of degree credit in academic work she is automatically excluded for the next year.

A student who fails for two successive years to meet the requirements for advancement to the next higher class is automatically excluded.

A student whose continuance in college may involve danger to her own health or to that of others may be asked to withdraw.

A student who is not in sympathy with the ideals and standards of the College or who is not mature enough for its program may be asked to withdraw. In such cases the judgment of the administrative officers is sufficient, and it is not necessary that specific charges be made.

THE BACHELOR OF ARTS DEGREE

Requirements for the Degree

CANDIDATES for the B.A. degree must present a minimum of one hundred eighty quarter hours of academic work of which half must be of grade C or above. This grade (C or above) must be made in not less than forty-eight quarter hours in the junior and senior years, and in not less than twenty-one hours in either of these years.

In addition to the academic hours, nine quarter hours in physical education must be presented.

Certain courses are required, as listed below, and others are elective. The program of work for each student must be approved by the Committee on Courses for Freshmen or the Committee on Courses for Upper Classmen.

Required Courses

A. Specific requirements:

English 101	9 quarter hours
Bible 101, 201, or 301	9 quarter hours

B. Group requirements, with options:

Group 1. Literature, Language (Classical Languages, French, German, Spanish). Courses are required in two departments (a minimum of 9 quarter hours in each of two departments).

The literature option may be fulfilled by a literature course in English or in foreign language.

One course (9 quarter hours) must be in a foreign language. Elementary courses in the languages will not be accepted in fulfilling this requirement. The student is urged to continue a language begun in secondary school. If she elects a language in which she has not had preparatory work she must continue it for two years.

Group 2. Science and Mathematics (Biology, Chemistry, Physics,

Astronomy, Mathematics). Courses are required in two departments (a minimum of 9 quarter hours in each of two departments). One of these courses must be Biology, Chemistry, or Physics.

Group 3. Social Science (History 101 or 215, or Political Science 201 and 202, or Classical Civilization; Psychology; Economics or Sociology). Courses are required in two departments (a minimum of 9 quarter hours in each of two departments).

The specific and group requirements for the degree must be completed by the end of the sophomore year with such exceptions as the Committee on Courses for Upper Classmen permits. No student shall be classified as a regular freshman unless she is taking English 101 and one course from each of groups 1 and 2.

Major and Related Hours

Major work must be planned by each student in the spring quarter of the sophomore year and approved by the departments concerned.

The major shall consist of not more than fifty-four quarter hours, including the basic course. Of these at least thirty-six must be in one subject, with twenty-seven of them taken in the junior and senior years. At least nine hours of the major must be in closely related fields; an exception may be made in the departments of Art and Music.

The nine hours' credit of the honors program is not to be counted in the major.

Work in the major subject must be continued throughout the junior and senior years, with such exceptions as may be permitted by major professors and the Committee on Courses for Upper Classmen.

At least eighteen hours of the major subject taken in the junior and senior years must be completed with a grade of C or above.

Major work is offered in the following subjects: Art, Bible, Biology, Chemistry, Economics and Sociology, Eng-

lish, French, German, Greek, History, History and Political Science, Latin, Mathematics, Music, Physics, Psychology, and Spanish. Through an agreement with Emory University, major work is offered in Business Economics and Journalism.

Interdepartmental majors are offered in Science, Social Science, and the Classics.

The interdepartmental major in Science consists of the following courses: Biology 101, 207, 306; Chemistry 101, 205; Physics 101; and nine additional hours. Chemistry 201 and 203 are recommended for these additional hours.

This major is primarily for pre-medical students and for students planning to teach science in secondary schools. Any variation from this major must be approved by the department of primary interest.

Elective Courses

The remaining hours required to complete the one hundred eighty hours of academic work may be chosen subject to the following restrictions:

1. Not more than two courses may be taken under any one professor in any given quarter.

2. Not more than twenty-five hours may be taken in one subject in any one session, and not more than sixty hours in one subject may be presented for the degree.

3. The elementary course in a foreign language may be counted toward the degree only when it is followed by another year of the same language or when it is the student's fourth foreign language. An exception to this regulation is made for students who are doing major work in Latin. With the recommendation of the department and the approval of the Committee on Courses for Upper Classmen, these students will be allowed to count elementary Greek toward the degree.

Any student in any department of the college who gives

evidence of inability to write correctly may be required to take additional work in English composition, even though English 101 may have been passed.

In order to receive the nine quarter hours of credit required in physical education, the student must complete three years of work in this department. Special arrangements will be made for those entering with advanced standing credit.

Freshman Program

Freshmen will make a tentative selection of courses during the summer preceding admission. Blanks will be provided by the College.

The following courses must be elected, with the options indicated:

1. English 101.
2. A foreign language. A language begun in secondary school may be taken for a minimum of one year, or a new language may be elected, to be taken for a minimum of two years.
3. Astronomy, mathematics, and/or a laboratory science (choice of general biology, chemistry, physics). If physics is taken, mathematics should also be elected.

In addition to the above requirements, freshmen will take one or two courses with the advice of the Committee on Courses for Freshmen. Since two courses in social science are required for the degree, it is generally advisable to take one in the freshman year and another in the sophomore year. In this field History 101 and Classical Civilization 150 are open to first-year students. Elective courses in art, Bible, foreign languages, music, and speech are also available.

Classification of Students

Candidates for the degree are classified according to the requirements outlined below:

FRESHMEN:

Upon presentation of required entrance units, provided the regular freshman program of studies is taken. In this classification are listed second-year students who have not been admitted to sophomore standing.

SOPHOMORES:

1. A passing grade in 45 quarter hours of academic work, or sufficient hours of a higher grade (C or above) plus the number of hours passed to give a total of 45. In meeting this latter requirement, a minimum of 30 quarter hours of academic work must be passed.
2. Sufficient hours scheduled to give a total of 78 quarter hours at the end of the session.

JUNIORS:

1. Completion of 78 quarter hours of academic work.
2. A minimum of 27 hours of grade C or above, of which at least 18 have been earned during the preceding session.
3. Sufficient hours scheduled to give a total of 129 quarter hours at the end of the session.

SENIORS:

1. Completion of 129 hours of academic work.
2. A minimum of 54 hours of grade C or above, of which at least 21 have been earned during the preceding session.
3. Sufficient hours scheduled during the current session to give a total of 180 quarter hours in academic work for the degree.

COURSES OF INSTRUCTION

COURSES numbered 101 to 199 are open primarily to freshmen and sophomores; Courses 201 to 299 to sophomores and juniors; Courses 301 to 399 to juniors and seniors; and Courses 401 to 499 to seniors only. Courses open to lower classes are also open to upper classes unless stated to the contrary.

Fall quarter courses are designated by *a*, winter quarter courses by *b*, spring quarter courses by *c*. Numbers with hyphenated letters indicate courses extending through two quarters. Numbers without letters indicate courses extending throughout the year. No credit is given for a course until the entire course is completed.

Emory University Courses

Through a cooperative agreement, major work in business economics and journalism is offered on the Emory University campus. Other courses not offered at this college may be taken at Emory. Permission for such work is given by the Committee on Courses for Upper Classmen and is limited to juniors and seniors.

The agreement with Emory is a part of the University Center program to avoid duplications in educational offerings in this area.

The Staff

Throughout the year:

Section A: Monday, Wednesday, Friday 9:30

Section B: Monday, Wednesday, Friday 11:10

Laboratory: Section A(1) Monday or A(2) Tuesday
1:40-4:40

Section B(1) Wednesday or B(2) Thursday
1:40-4:40

Credit: Twelve quarter hours

Botany

201. GENERAL BOTANY. Laboratory and field study of the plant kingdom. Survey of the life of seed plants, with emphasis on relations between structure and function. Study of the structure, life history, reproduction, and relationships of selected forms from the thallophytes through the spermatophytes.

Miss Bridgman

Throughout the year: Tuesday, Thursday 8:30

Laboratory or field: Wednesday 1:40-4:40

Credit: Nine quarter hours

Prerequisite: Biology 101 or permission of instructor

- 202c. PLANT TAXONOMY AND FIELD BOTANY. A study of the principles of plant classification and a systematic study of the ferns, conifers, and flowering plants in the vicinity of Decatur and Atlanta. *Miss Bridgman*

Spring quarter: Tuesday, Thursday 11:10

Laboratory and field: Hours to be arranged

Credit: Three quarter hours

Prerequisite: Biology 101 or 201

- 301b. BACTERIOLOGY. The biology of bacteria and an introduction to bacteriological technique. *Miss Bridgman*

Winter quarter: Monday, Wednesday, Friday 11:10

Laboratory: Tuesday 1:40-4:40; three hours to be arranged

Credit: Five quarter hours

Prerequisite: Biology 101, Chemistry 101

- 311c. PLANT PHYSIOLOGY. Experimental studies of the activities of living things in laboratory and greenhouse. *Miss Bridgman*

Spring quarter: Monday, Wednesday, Friday 11:10

Laboratory: Tuesday 1:40-4:40; three hours to be arranged

Credit: Five quarter hours

Prerequisite: Biology 201; prerequisite or corequisite: Chemistry 101

Zoology

207. ZOOLOGY. A comparative study of the development, structure, relationships, and distribution of invertebrate and vertebrate animals. Representative types studied in the laboratory and museum. *Miss MacDougall, Miss Groseclose*

a. Invertebrate Zoology: from the Protozoa to the Arthropoda

b. The Arthropoda and the Lower Chordata

c. The Comparative Anatomy of the Vertebrata

Throughout the year: Monday, Wednesday 8:30

Laboratory: Wednesday, Friday 1:40-4:40

Credit: Nine quarter hours

Prerequisite: Biology 101

303. GENETICS AND EVOLUTION. Important theories of variation; physical basis of heredity and evolution; the laws of heredity and their social application. *Miss MacDougall, Miss Davis*
Throughout the year: Tuesday, Thursday 9:30
Conference: Saturday 9:30
Laboratory: Two hours to be arranged
Credit: Without laboratory, 6 quarter hours; with laboratory, 9 quarter hours
Prerequisite: Biology 101
The laboratory work is required of students majoring in biology.
- 305b-c. TECHNIQUE. Primarily a laboratory course with practical work in the more usual methods of histological and cytological technique. *Miss MacDougall, Miss Groseclose*
Winter and spring quarters: Tuesday, Thursday 11:10
Laboratory: Five hours to be arranged
Credit: Six quarter hours
Prerequisite: Biology 101
Major students in biology, who expect to take embryology, will be allowed to take one quarter's work in technique.
- 306a. EMBRYOLOGY. The fundamental facts of embryology, with especial reference to mammalian development. *Miss MacDougall, Miss Groseclose*
Fall quarter: Tuesday, Thursday, Saturday 11:10
Laboratory: Tuesday, Thursday 1:40-4:40
Credit: Five quarter hours
Prerequisite: Biology 101

Physiology

- 310a. GENERAL PHYSIOLOGY. The fundamental activities of living matter. *Miss Groseclose*
Fall quarter: Tuesday, Thursday, Saturday 8:30
Laboratory: Six hours to be arranged
Credit: Five quarter hours
Prerequisite: Biology 101; prerequisite or corequisite: Chemistry 101
- 312b. HUMAN PHYSIOLOGY. A study of the functions of organ systems of the human body and their interrelationships. *Miss Groseclose*

Winter quarter: Tuesday, Thursday, Saturday 8:30

Laboratory: Six hours to be arranged

Credit: Five quarter hours

Prerequisite: Biology 101; prerequisite or corequisite: Chemistry 101

Requirements for the Major

Basic course: Biology 101. This course counts nine hours on the requirements for majors.

Required courses when zoology is the subject of primary interest: 207, 303, 306

Required courses when botany is the subject of primary interest: 201, 202, 303, 311

Elective courses to complete the major and to meet the requirement of related hours must be approved by the department.

A reading knowledge of French and German and courses in elementary and organic chemistry are recommended.

Students planning an interdepartmental major in science must consult the department of primary interest.

CHEMISTRY

Professor FRIERSON

Associate Professor CRIGLER

Miss TREADWELL

Miss WRIGHT

101. GENERAL CHEMISTRY. The more important nonmetallic and metallic elements with special emphasis given to the fundamental laws and theories of chemistry. *Mr. Frierson*

Throughout the year:

Section A: Monday, Wednesday, Friday 9:30

Section B: Monday, Wednesday, Friday 11:10

Laboratory: Section A: Tuesday 1:40-4:40

Section B: Wednesday 1:40-4:40

Section C: Thursday 1:40-4:40

Credit: Twelve quarter hours

201a. QUALITATIVE ANALYSIS. Chemical equilibrium and related topics. *Mr. Frierson*

Fall quarter: Tuesday, Thursday 8:30

Laboratory: Monday, Tuesday or Monday, Wednesday
1:40-4:40

Credit: Four quarter hours

Prerequisite: Chemistry 101

- 203b-c. QUANTITATIVE ANALYSIS. Gravimetric and volumetric methods of analysis. *Mr. Frierson*
Winter and spring quarters: Tuesday, Thursday 8:30
Laboratory: Monday, Wednesday 1:40-4:40
Credit: Eight quarter hours
Prerequisite: Chemistry 201
205. ORGANIC CHEMISTRY. A study of the compounds of carbon. *Miss Crigler*
Throughout the year: Monday, Wednesday, Friday 8:30
Laboratory: Monday, Wednesday 1:40-4:40
Credit: Fifteen quarter hours
Prerequisite: Chemistry 101
- 302a, b, c. ADVANCED QUANTITATIVE ANALYSIS. Advanced analytical methods and modern instrumental methods of analysis. Any quarter may be taken independently. *Mr. Frierson*
Fall, winter, and spring quarters: Hour to be arranged
Laboratory: Tuesday, Thursday 1:40-4:40
Credit: Three, six, or nine quarter hours
Prerequisite: Chemistry 203
- 303a-b. QUALITATIVE ORGANIC ANALYSIS. *Miss Crigler*
Fall and winter quarters: Wednesday 11:10
Laboratory: Tuesday, Thursday 1:40-4:40
Credit: Six quarter hours
Prerequisite: Chemistry 203, 205
- 304c. ADVANCED ORGANIC CHEMISTRY. Preparations. *Miss Crigler*
Spring quarter: Wednesday 11:10
Laboratory: Tuesday, Thursday 1:40-4:40
Credit: Three quarter hours
Prerequisite: Chemistry 205
305. PHYSICAL CHEMISTRY. Theoretical principles and their application. *Miss Crigler*
Throughout the year: Tuesday, Thursday, Saturday 8:30
Laboratory: Friday 1:40-4:40
Credit: Twelve quarter hours
Prerequisite or corequisite: Physics 101, Mathematics 302, Chemistry 203 and 205
- 415a,b,c. DIRECTED STUDY. With the permission of the department

seniors may arrange a course of independent reading and laboratory work.

Offered each quarter

Credit: Three or five quarter hours

Requirements for the Major

Basic course: Chemistry 101

Required chemistry courses: Chemistry 201, 203, 205, and six additional hours in advanced courses

Foreign language: German or French

Elective courses to meet the requirement of related hours must be approved by the department.

Students planning to take graduate work in chemistry should elect Chemistry 305 in addition to the above outlined major.

Students planning an interdepartmental major in science must consult the department of primary interest.

CLASSICAL LANGUAGES AND LITERATURES

Professor GLICK

Assistant Professor ZENN

Greek

101. ELEMENTARY. The essentials of forms and syntax; reading of selections from Xenophon and Plato; writing Greek. *Miss Zenn*

Requirements for the Major

Basic course: English 211. (English 101 is previously required of all freshmen.)

Required English courses:

(a) Two of the following: 305, 306, 313, 314

(b) One of the following: 327, 328, 360

(c) One of the following: 321, 322, 326, 335

Required foreign language courses: Three full college years of a foreign language or equivalent (two high school years count as one college year).

Elective courses to complete the major and to meet the requirement of related hours must be approved by the department. Courses offered for the English major must be chosen from among those previously listed under Composition and Literature.

Students expecting to teach English are advised to take American literature. The department urges English majors to study Greek through Homer and Latin through Horace. Other subjects closely related to English are history, philosophy, and art.

Students planning to do graduate work in English are reminded that some of the graduate schools now require Latin, French, and German (to be tested by examination) for the master of arts degree.

Attention is particularly called to the importance for English majors of work in speech.

Speech

105. FUNDAMENTALS OF SPEECH. Through both theory and practice the attempt is made to develop a responsive body and good speaking voice, and the ability to speak and read aloud correctly and expressively. The phonetic method is used for improving diction. A record of voice and diction is made at the beginning and end of the year in order to check progress. *Miss Winter*

201. ANALYTIC GEOMETRY AND INTRODUCTION TO CALCULUS.

Miss Gaylord

Throughout the year: Monday, Wednesday, Friday 12:10

Credit: Nine quarter hours

Prerequisite: Mathematics 101

205c. FINANCIAL MATHEMATICS. *Mr. Robinson*

Spring quarter: Monday, Wednesday, Friday 2:00

Credit: Three quarter hours

301a. DIFFERENTIAL CALCULUS. *Mr. Robinson*

Fall quarter: Tuesday through Saturday 9:30

Credit: Five quarter hours

Prerequisite: Mathematics 201

302b. INTEGRAL CALCULUS. *Mr. Robinson*

Winter quarter: Tuesday through Saturday 9:30

Credit: Five quarter hours

Prerequisite: Mathematics 301

303c. ADVANCED CALCULUS. *Mr. Robinson*

Spring quarter: Tuesday through Saturday 9:30

Credit: Five quarter hours

Prerequisite: Mathematics 302

Given in alternate years with 304c; offered in 1950-1951

304c. DIFFERENTIAL EQUATIONS. *Miss Gaylord*

Spring quarter: Tuesday through Saturday 9:30

Credit: Five quarter hours

Prerequisite: Mathematics 302

Given in alternate years with 303c; not offered in 1950-1951

306a. CURVE TRACING. Plane algebraic curves. *Miss Gaylord*

Fall quarter: Monday through Friday 11:10

Credit: Five quarter hours

Prerequisite: Mathematics 201

Given in alternate years with 307a; offered in 1950-1951

307a. THEORY OF EQUATIONS AND DETERMINANTS. *Miss Gaylord*

Fall quarter: Monday through Friday 11:10

Credit: Five quarter hours

Prerequisite: Mathematics 201

Given in alternate years with 306a; not offered in 1950-1951

328a-b. STATISTICS. *Mr. Robinson*

Fall and winter quarters: Monday, Wednesday, Friday 2:00

Credit: Six quarter hours

401b. PROJECTIVE GEOMETRY. *Miss Gaylord*

Winter quarter: Monday through Friday 11:10

402c. COLLEGE GEOMETRY. *Mr. Robinson*

Spring quarter: Tuesday through Saturday 8:30

Credit: Five quarter hours

Prerequisite: Mathematics 201

Given in alternate years; not offered in 1950-1951

403c. THEORY OF FUNCTIONS OF A COMPLEX VARIABLE. *Miss Gaylord*

Spring quarter: Monday through Friday 11:10

Credit: Five quarter hours

Prerequisite: Mathematics 302

Given in alternate years; offered in 1950-1951

404b. ANALYTIC GEOMETRY OF SPACE. *Miss Gaylord*

Winter quarter: Monday through Friday 11:10

Credit: Five quarter hours

Prerequisite: Mathematics 201

Given in alternate years with 401b; not offered in 1950-1951

415a, b, c. DIRECTED STUDY. Supplementary advanced work may be taken by seniors who are majoring in mathematics and who have demonstrated their ability to do independent work. Application must be made at the time of selecting electives. *The Staff*

Offered each quarter

Credit: Three or five quarter hours

Requirements for the Major

Basic course: Mathematics 101

Required courses: Mathematics 201, 301, 302, and 303 or 304

Elective courses to complete the major and to meet the requirement of related hours must be approved by the department.

Section B: Tuesday, Thursday, Saturday 9:30

Credit: Nine quarter hours

111. HARMONY. Triads and their inversions, dominant-seventh chord and its inversions, elementary modulation. Harmonization of melodies and basses, with emphasis on keyboard work. Melodic dictation and analysis. *Mr. Dieckmann*

Throughout the year: Monday, Wednesday, Friday 2:00

Credit: Nine quarter hours

Prerequisite: Music 107 or equivalent

209. COUNTERPOINT. Strict counterpoint in all species in two and three parts, and in first species in four parts. Double counterpoint at the octave, with reference to fugue subjects and counter-subjects. Free counterpoint as applied to the two-part and three-part Inventions, Canon and Fugue. Analysis. *Mr. Dieckmann*

Throughout the year: Three hours to be arranged

Credit: Nine quarter hours

Given in alternate years with 311; offered in 1950-1951

211. ADVANCED HARMONY. Secondary seventh chords, chords of the ninth, altered and mixed chords, modulation, suspensions and other non-harmonic tones. Continued emphasis on keyboard work, advanced dictation and analysis. *Mr. Dieckmann*

Throughout the year: Monday, Wednesday, Friday 3:00

Credit: Nine quarter hours

Prerequisite: Music 111

213. HISTORY OF MUSIC AND APPRECIATION. History of music and of musical literature. Training in the observation of the structural elements of music and the study of musical form. Non-technical; no previous training required. *Mr. Dieckmann*

Throughout the year: Tuesday, Thursday, Saturday 12:10

Credit: Nine quarter hours

311. COUNTERPOINT AND COMPOSITION. Canon and fugue. Composition in the smaller forms, including songs, settings for chorus, and instrumental solos for piano, organ, violin, or other instruments with piano. *Mr. Dieckmann*

Throughout the year: Three hours to be arranged

Credit: Nine quarter hours

Given in alternate years with 209; not offered in 1950-1951

Practical Courses

- PIANO. General course. Technique from fundamental to highest proficiency, including studies, pieces in various styles. *Mr. Dieckmann, Mrs. Bryan, Mrs. Gilbreath*

Two lessons a week

Open to all students and adapted to individual proficiency

ORGAN. For students who have had advanced piano training. Designed to develop organists for church and concert work. *Mr. Dieckmann*

Two lessons a week

VIOLIN. Technical training. Sonatas, concertos, and concert pieces from the best writers for the instrument. *Miss Smith*

Two lessons a week

VOICE. Proper placing of voice; correct habits of breathing, enunciation, phrasing; development of tone with the study of songs selected from standard and modern song writers and the great oratorios. First-year students may take voice in classes of five or six. *Mr. Johnson*

Two private lessons a week or vocal music in classes

COLLEGE CHOIR AND GLEE CLUB. Organized for the study and performance of sacred and secular vocal music. Membership by try-out. Concerts are given at the college each year, and opportunities are afforded for participation in musical programs of Atlanta churches, clubs, and radio stations. *Mrs. Clarke, Mr. Johnson*

STRING ENSEMBLE. Open to all students who play violin, viola, or violoncello. Not limited to students in the department of music. Admission by try-out. *Mr. Dieckmann*

Degree Credit

Credit toward the degree is given for courses in piano, organ, violin, and voice. This credit in practical music is limited to eighteen hours.

Admission to degree credit courses in piano, organ, and violin is subject to the following conditions:

1. PIANO. At the beginning of the session students in piano must pass a satisfactory examination in theory, given by the professor of music, and must demonstrate sufficient technical ability to play correctly—with regard to fingering, phrasing, tempo, and dynamic

effects — works of the grade of difficulty of the F-minor Sonata, Op. 2, No. 1, of Beethoven and the two-part Inventions of Bach.

2. ORGAN. Students applying for degree credit in organ must have already received degree credit for at least one year's work in piano. Otherwise, special permission must be secured from the head of the department.

3. VIOLIN. Students applying for degree credit in violin must, in addition to passing a satisfactory examination in theory, give evidence of having done satisfactory work in study material of the grade of difficulty of the Kayser Studies, Op. 20, Bks. I and II; Mazas "Thirty Special Studies," Op. 36, Bk I; Schradieck "School of Violin Technics," Vol. I; and the concertos of Accolay and Sitt.

Students who have been admitted to degree credit courses in piano, organ, or violin may receive credit for practical music to the extent of six quarter hours a year for three years upon the satisfactory completion each year of the following work:

- a. Two lessons weekly of half an hour each in piano, organ or violin
- b. One hour and a half of practice daily for six days each week
- c. Nine quarter hours of theoretical work in addition to the six hours of practical credit. (Music 107 is not counted as a theoretical course for students of instrumental music.)

Admission to degree credit courses in voice will be permitted if the student passes satisfactorily a test given by the instructor. Students who have been admitted to degree credit courses in voice may receive credit for practical music to the extent of three quarter hours a year for three years upon the satisfactory completion each year of the following work:

- a. Two lessons weekly of half an hour each in vocal music
- b. Five hours of practice each week
- c. Nine quarter hours of theoretical work in addition to the three hours of practical credit

All voice students are advised to take Music 107 during their first year of vocal study. A student who is not qualified to receive degree credit in voice until her second year's work may, if Music 107 was taken during the preceding year, count this course as meeting the theoretical requirement for degree credit in the second year.

Requirements for the Major

Basic course: Music 111

Required courses: Music 211, 213, and either 209 or 311. Two years of practical music of degree credit grade, one year of which must be taken in the junior or senior year. The practical music may be in piano, organ, violin, or voice, but cannot be divided between any two of these.

Required literature and language courses: English 211; two full college years of French or German (two high school years count as one college year).

PHYSICAL EDUCATION

Professor VANCE

Associate Professor WILBURN

Assistant Professor LAPP

Miss DOZIER

Miss WILLIAMS

Physical education is required of all students during the first three years. The requirement includes the passing of a college swimming test, a course in fundamentals of body control, a team sport, an individual sport, and dancing. At the end of any session a student who has failed four quarters of physical education will not be allowed to return to college unless the work is made up in the summer vacation.

101. COURSES FOR FIRST-YEAR STUDENTS.

Fall quarter: Dancing, archery, hockey, swimming

Winter quarter: Fundamentals of Body Control. The acquisition of endurance, strength, flexibility, relaxation, and body control. Required of all freshmen.

Spring quarter: Instruction in one of the activities listed under 201 and 301

201, 301. COURSES FOR SECOND AND THIRD-YEAR STUDENTS. Instruction in one of the following activities:

Fall quarter: Archery, dancing, diving, hockey, swimming, tennis

Winter quarter: Badminton, basketball, body mechanics, dancing, Red Cross course in senior life saving and water safety, swimming

Spring quarter: Archery, diving, golf, practices for the May Day festival, Red Cross instructor's course in life saving and water safety, recreational leadership, swimming, tennis

A special fee is charged for golf.

A physical education fee of \$10.00 is charged all new students. This fee covers cost of gymnasium outfit, bathing suit, towels, laundry, and upkeep of equipment for the four years. All equipment is bought by the college.

A conference will be arranged by the resident physician for each new student as a follow-up of the examination made prior to entrance. At this time the medical history forms are studied and any health problems of the student are discussed. Further examinations are made as indicated. Each new student is also checked by the staff of the physical education department. Recommendations for physical education are made from the findings of this examination and on the advice of the resident physician.

The physical education program includes instruction in personal hygiene.

PHYSICS AND ASTRONOMY

Professor CALDER

Miss REDD

Physics

101. GENERAL PHYSICS. Properties of matter, mechanics, sound, heat, electricity, magnetism, and light. Lectures illustrated by experiments, supplemented by problems and individual laboratory work.

Throughout the year: Tuesday, Thursday, Saturday 9:30

Laboratory: Wednesday or Thursday 1:40-4:40

Credit: Twelve quarter hours

Prerequisite or corequisite: Mathematics 101

201a. LIGHT. Geometrical optics.

Fall quarter: Tuesday, Thursday 12:10

Laboratory: Tuesday 1:40-4:40

Credit: Three quarter hours

Prerequisite: Physics 101

Given in alternate years; not offered in 1950-1951

202b. LIGHT. Physical optics.

Winter quarter: Tuesday, Thursday 12:10

Laboratory: Tuesday 1:40-4:40

Credit: Three quarter hours

Prerequisite: Physics 101

Given in alternate years; not offered in 1950-1951

203c. SELECTED TOPICS. A course to meet the needs of the individual student. Opportunity is given for independent study or experiment in some field of interest.

Spring quarter: Tuesday, Thursday 12:10

Laboratory: Tuesday 1:40-4:40

Credit: Three quarter hours

Prerequisite: Physics 101

Given in alternate years; not offered in 1950-1951

301a or a-b. HEAT, THERMODYNAMICS, AND KINETIC THEORY OF GASES.

Fall and winter quarters: Monday, Wednesday 8:30

Laboratory: Monday 1:40-4:40

Credit: Three or six quarter hours

Prerequisite: Physics 101

Open to sophomores, juniors, and seniors

Given in alternate years; offered in 1950-1951

302a or a-b. ELECTRICITY AND MAGNETISM.

Fall and winter quarters: Tuesday, Thursday 12:10

Laboratory: Tuesday 1:40-4:40

Credit: Three or six quarter hours

Prerequisite: Physics 101

Open to sophomores, juniors, and seniors

Given in alternate years; offered in 1950-1951

303c. MECHANICS.

Spring quarter: Monday, Wednesday 8:30

Laboratory: Monday 1:40-4:40

Credit: Three quarter hours

Prerequisite: Physics 101

Open to sophomores, juniors, and seniors

Given in alternate years; offered in 1950-1951

306c. ELECTRONICS.

Spring quarter: Tuesday, Thursday 12:10

Laboratory: Tuesday 1:40-4:40

Credit: Three quarter hours

Prerequisite: Physics 101

Open to sophomores, juniors, and seniors

Given in alternate years; offered in 1950-1951

350. ATOMIC PHYSICS.

Throughout the year: Monday, Wednesday, Friday 8:30

Credit: Nine quarter hours

Prerequisite: Physics 101; prerequisite or corequisite:

Mathematics 301, 302

Given in alternate years; not offered in 1950-1951

Requirements for the Major

Basic course: Physics 101

Required courses: Twenty-four additional hours in Physics. Physics 350 is recommended.

Required mathematics courses: Mathematics 101, 201, 301, 302

Elective courses to meet the requirement of related hours must be approved by the department.

Students planning an interdepartmental major in science must consult the department of primary interest.

Astronomy

151a. DESCRIPTIVE ASTRONOMY. Historical introduction, constellation study, celestial sphere, moon, instruments, and telescopic observation.

Fall quarter:

Section A: Monday, Wednesday, Friday 11:10

Section B: Tuesday, Thursday 2:00-3:30

Credit: Three quarter hours

152b. SUN AND ITS FAMILY.

Winter quarter:

Section A: Monday, Wednesday, Friday 11:10

Section B: Tuesday, Thursday 2:00-3:30

Credit: Three quarter hours

Prerequisite: Astronomy 151 or permission of instructor

153c. OUR GALAXY AND THE EXTERNAL STELLAR SYSTEMS.

Spring quarter:

Section A: Monday, Wednesday, Friday 11:10

Section B: Tuesday, Thursday 2:00-3:30

Credit: Three quarter hours

Prerequisite: Astronomy 151, 152, or permission of instructor

220. ADVANCED ASTRONOMY.

Credit and hours to be arranged

Prerequisite: Astronomy 151, 152, 153

PSYCHOLOGY AND EDUCATION

Professor STUKES

Associate Professor DEXTER

Associate Professor OMWAKE

Associate Professor GOODLAD

Assistant Professor WIGGINS

Psychology

201. GENERAL PSYCHOLOGY. A scientific description of facts and principles of psychology. Emphasis on method and results of experimental investigation.

Throughout the year:

Section A: Monday, Wednesday, Friday 11:10.

Mr. Stukes

Section B: Monday, Wednesday, Friday 12:10.

Miss Dexter

Section C: Tuesday, Thursday, Saturday 8:30.

Miss Omwake

Credit: Nine quarter hours

Prerequisite to other courses in psychology

305a. SOCIAL PSYCHOLOGY. The development of personality in social situations. Psychology of groups. *Mr. Stukes*

Fall quarter: Monday through Friday 12:10

Credit: Five quarter hours

306b. APPLIED PSYCHOLOGY. Principles, techniques, and methods of applied psychology; application of psychological principles and tests in vocational selection, business, law, medicine, and other fields. *Miss Omwake*

Winter quarter: Monday through Friday 12:10

Credit: Five quarter hours

307a-b. EXPERIMENTAL PSYCHOLOGY. Major problems, methods, and results of the experimental study of behavior and conscious-

ness, including statistical procedures necessary for interpretation of psychological studies. *Miss Omwake*

Fall and winter quarters: Wednesday, Friday 8:30

Laboratory: Monday 1:40-4:40

Credit: Six quarter hours

310c. MENTAL MEASUREMENT. Fundamentals and principles of mental tests; administering, evaluating, and using results obtained. *Miss Dexter*

Spring quarter: Monday, Wednesday, Friday 8:30

Credit: Three or five quarter hours

Additional hours of instruction and training for students who register for five hours' credit. Permission of instructor must be secured.

311a or b. PSYCHOLOGY OF CHILDHOOD AND ADOLESCENCE. The mental development of the child through the period of adolescence.

Fall quarter: Monday through Friday 9:30. *Miss Omwake*

Winter quarter: Monday through Friday 11:10. *Miss Dexter*

Credit: Five quarter hours

312c. ABNORMAL PSYCHOLOGY. Abnormal mental processes, including the more common types of psychoses and psychoneuroses, with emphasis on prevention and on mental hygiene. *Miss Omwake*

Spring quarter: Monday through Friday 12:10

Credit: Five quarter hours

315c. PSYCHOLOGICAL PROBLEMS AND POINTS OF VIEW. Present-day problems and recent developments in psychology. An historical and developmental approach to the modern points of view. *Miss Omwake*

Spring quarter: Monday through Friday 11:10

Credit: Five quarter hours

Requirements for the Major

Basic course: Psychology 201

Required psychology courses: 307 and 310

Required science courses: Biology 101 and another year of laboratory science or mathematics

Elective courses to complete the major and to meet the requirement of related hours must be approved by the department. Five hours of philosophy may be included in the major.

Education

301 a or b. PSYCHOLOGY OF CHILDHOOD AND ADOLESCENCE. (Psychology 311.) The mental development of the child through the period of adolescence.

Fall quarter: Monday through Friday 9:30. *Miss Omwake*

Winter quarter: Monday through Friday 11:10. *Miss Dexter*

Credit: Five quarter hours

Prerequisite: Psychology 201

302b. PHILOSOPHY OF EDUCATION. The fundamental principles of education, standards and methods. *Miss Dexter*

Winter quarter: Tuesday, Thursday, Saturday 12:10

Credit: Three quarter hours

303a. AMERICAN EDUCATION. The historical development of education in the United States. *Miss Dexter*

Fall quarter: Monday through Friday 11:10

Credit: Five quarter hours

401a. THE TEACHING PROCESS. The methods of working in a teaching relationship with children and young people. Laboratory type procedures are employed. Separate sections for prospective elementary and secondary school teachers. *Mr. Wiggins, Mr. Goodlad*

Fall quarter: Monday through Friday 9:30

Credit: Five quarter hours

Prerequisite or corequisite: Education 301 and 303

402b. APPRENTICE TEACHING. Carefully guided experience as an assistant teacher in a public school. Open with permission of the director of teacher education to students who have shown definite scholastic aptitude and personality traits. *Mr. Wiggins*

Winter quarter: Monday through Friday for three consecutive clock hours in a school

Credit: Ten quarter hours

Prerequisite: Education 401 or equivalent

403c. DIRECTED OBSERVATION AND STUDENT TEACHING. Directed observation of children and of teachers at work. An ordered presentation of principles of method. Open primarily to students whose schedules do not permit 402. *Mr. Wiggins*

Spring quarter: Monday 9:30

Conferences and laboratory: Hours to be arranged

Credit: Five quarter hours

Prerequisite: Education 401 or equivalent

404b. PROBLEMS SEMINAR. Individual and group study of the curriculum based on experiences in course 402. Special methods and testing procedures. *Mr. Wiggins*

Winter quarter: Monday through Friday 9:30

Credit: Five quarter hours

Corequisite: Education 402

Students preparing for teaching positions should take general psychology in their sophomore year. It is advisable to take Education 301 and 303 in the junior year; and the 400 courses must be taken in the senior year. Through a cooperative program with Emory University it is possible to meet the certification requirements of the various states. The director of teacher education in the two institutions will advise students in regard to these requirements and assist in planning for necessary courses. The head of the department may also be consulted at any time.

BUILDINGS, GROUNDS, AND EQUIPMENT

THE COLLEGE has a campus of fifty-five acres. The main buildings are brick and stone and those of more recent construction are modern Gothic in design. Dormitories are completely equipped with sprinkler systems and fire escapes.

BUTTRICK HALL, the classroom-administration building, was erected in 1930 through the support of the General Education Board of New York and is named in honor of Dr. Wallace Buttrick, former president of the Board. It contains administrative and faculty offices, classrooms, the art and psychology laboratories, day student rooms, and the college post office, bookstore, and bank.

THE CARNEGIE LIBRARY, erected in 1936, is named in honor of Andrew Carnegie, who provided funds for the first Agnes Scott library. The Agnes Scott collection numbers about 58,000 volumes, and 270 periodicals are received currently. The two main reading rooms seat 250 students, and an additional 250 can be accommodated in the carrels, the seminar and lecture rooms, and the outdoor reading terrace. There are six floors of open stacks.

Supplementing the bibliographical resources of the Agnes Scott library is a Union Catalogue at Emory University of the holdings of twenty-four libraries in the Atlanta-Athens area. About one million volumes are represented. Reciprocity in the libraries of this area, particularly between Agnes Scott and Emory, is a feature of the University Center program.

PRESSER HALL, completed in 1940, bears the name of Theodore Presser, Philadelphia music publisher whose Foundation contributed toward its erection. The building contains facilities for the teaching of music, including sound-proof studios and practice rooms, and is featured by Gaines Chapel and Maclean Auditorium.

THE FRANCES WINSHIP WALTERS INFIRMARY, completed in 1949, has capacity for thirty patients. Besides quarters for the college physician and two resident nurses, it contains offices, treatment rooms, and laboratory equipment. The building is named in honor of the donor, an alumna and trustee of the College.

The Winship Garden connects the infirmary with the main driveway.

THE OBSERVATORY, erected in 1949, houses the 30-inch Beck Telescope. It is located about one-quarter of a mile from the main part of the campus, and its facilities are shared by other institutions in the University Center.

THE AGNES SCOTT HALL, the gift of the late Colonel George W. Scott, provides headquarters for campus social activities. It contains the office of the Dean of Students, reception rooms, day student quarters, and three floors devoted to dormitory space. A colonnade connects this building with Rebekah Scott Hall, a combination dining hall and dormitory. A third large dormitory is the Jennie D. Inman Hall; and additional dormitory quarters are provided by Boyd, Cunningham, Gaines, Lupton, and Mary Sweet houses.

BUCHER SCOTT GYMNASIUM-AUDITORIUM is the center of athletic activities. Basketball and badminton courts,

an auditorium, swimming pool, and offices of the physical education directors are located here.

Other buildings on the campus include the Lowry Science Hall, the Murphey Candler Student Activities Building, and the Anna Young Alumnae House. Harrison Hut, located in the woods south of the campus, provides facilities for camping.

Under construction is the Letitia Pate Evans Dining Hall, named in honor of Mrs. Lettie Pate Evans of Hot Springs, Virginia. The building, to be completed in 1950, will be large enough to accommodate the entire student body.

Rooms

All rooms are at the same rate, whether double or single. Each room is furnished with single beds, mattresses and pillows, dressers, chairs, study table, student lamp, bookcase, and waste basket. Students will supply their own bed linen, blankets, curtains, rugs, and towels. Radios are permitted.

COMMUNITY ACTIVITIES

Extra-Curricular Program

THE STUDENT ORGANIZATIONS and publications occupy an important place in the life of the college community. They are supported in part by a fee of \$20.00 which, at the request of the students, is included under the general college expenses. This amount is distributed for use by the following: Student Government Association, Christian Association, Athletic Association, the Student Handbook, Mortar Board, Pi Alpha Phi, Lecture Association, Blackfriars, May Day Committee, International Relations Club, Glee Club, the literary magazine, the annual, and the weekly newspaper.

The Student Government Association is based upon a charter granted by the faculty and has for its purpose the ordering and control of the dormitory life and of most other matters not strictly academic. Its membership includes all students.

Agnes Scott Christian Association develops the spiritual life of the students and cooperates with other student associations in general Christian work. Most of the student body are members.

Athletic Association cooperates with the department of physical education in the management of sports and sponsors inter-class games, tournaments, swimming meets, and general recreational activities. Individual interests and skills are developed through various sports clubs.

Public Lecture Association, an organization of students and faculty, brings lecturers to the college community.

Publications include the "Aurora," a quarterly literary

magazine; the "Silhouette," the student annual; the "Agnes Scott News," the campus weekly; and "The Student Handbook," a manual of information issued annually by the student associations and mailed to new students during the summer preceding admission.

Clubs directed by students or by students and faculty together provide opportunity for development of special interests and talents. Membership in most of these is open by try-out. They include language and Bible clubs, International Relations Club, Pi Alpha Phi debating society, Blackfriars dramatic club, glee club, art students' league, cotillion club, and several literary groups. The classics and science organizations, Eta Sigma Phi and Chi Beta Phi, are national honorary societies.

Religious Life

Every effort is made to promote earnest and pronounced religious life in the college. Students are requested to select the church they desire to make their church home and are expected to attend this church on Sunday morning.

Devotional exercises are held in chapel every morning except Monday. Although attendance is not compulsory, all students are urged to be present regularly. Other religious services include Sunday evening vespers conducted by Christian Association and the tri-weekly vesper services led by members of the faculty.

Health Service

The student health service is under the direction of a physician who lives at the college and is on call at all times in case of emergency. She is assisted by two registered nurses who live in the infirmary.

Each new student is required to submit a certificate of examination by her private physician, a certificate of successful vaccination within six years, and a medical history report. Blanks for this information will be forwarded during the summer and should be returned to the college physician as soon as possible. They must be returned by September 1.

Each new student is urged to have ophthalmological and dental examinations during the summer preceding admission.

Each student has a 35 mm X-ray of chest made at the beginning of the year. If anything abnormal is noted on the small film, a regular size X-ray is made. The making of the X-rays and the expense involved are taken care of by the state. The reports on the X-rays are sent to the student's physician, and the family is advised of any abnormality.

Free typhoid inoculations are given if desired, and other personal needs are met as far as possible by the medical department.

Resident students who are ill must report to the physician for infirmary care. Hospitalization is used as a means of preventing illness as well as of restoring health to those who are ill.

The medical fee of \$10.00 per year paid by resident students covers ordinary infirmary and office care unless special medication or nursing is needed, in which case the expense is met by the individual. Resident students should consult the college physician before seeking medical or dental care in Atlanta. Consultants are called in at any time upon request.

The College reserves the right, if the parents or guardians cannot be reached, to make decisions concerning emergency health problems.

Counseling

While each student is encouraged to be increasingly self-reliant in college and community life, the College realizes the value of advisory assistance in developing individual interests and ability. Academic counseling is done by the Dean of the Faculty, the major professors, and designated members of the faculty.

General counseling of students, particularly in relation to non-academic matters and social and extra-curricular activities, is centered in the office of the Dean of Students.

All of the counseling services described above are available for boarding and day students alike. In addition, for non-resident students there is a special adviser in the office of the Dean of Students.

Placement Service

The College operates a placement service through the office of the Dean of the Faculty. Confidential reference files are maintained for all graduates and are sent to prospective employers on request. There is no charge for the service.

Seniors are urged to consult the Dean of the Faculty for vocational information.

FINANCIAL INFORMATION

Tuition, etc., as above	\$ 485.00
Maintenance fee	25.00
Medical fee	10.00
Board, including room, heat, light, laundry (amount limited) .	680.00

\$1,200.00

Payable: At time of registration	\$ 25.00
On or before August 10 (not refundable) . . .	150.00
On entrance in September	575.00
(New students will pay \$585.00 to include gymnasium equipment fee)	
January 1	450.00

Checks covering items listed above are *not* to include funds for any other fees or for the student's personal account. Payments must be made direct to the Treasurer on the specified dates. No bills are rendered. Registration in September will be facilitated if check is sent prior to the student's arrival.

A patron who finds it necessary to request deferred pay-

ment of his account must make special arrangements with the Treasurer in advance of the due date. In all such cases notes must be signed in advance. They bear interest at six per cent from date payment was due. Notes are accepted with the understanding that the account is not considered settled unless the notes are met promptly on due date.

Notes cannot be accepted for the \$150.00 payment for resident students due August 10.

Discounts

A discount on tuition of \$50.00 each is made when two or more sisters are resident students.

A discount on tuition of \$100.00 is made to resident students whose fathers are ministers regularly engaged in their calling. A discount on tuition of \$50.00 is made to non-resident students whose fathers are ministers regularly engaged in their calling.

Half of all discounts will be credited on the September payment and half on the January payment.

Discounts for students receiving scholarship assistance are included in the total amount allowed and are not credited separately.

Special Fees

Because students must secure permission from the committees on selection of courses in order to take laboratory work or private lessons in music and speech, payment for these items cannot be included in checks for general college fees. However, these special fees are to be paid after permission has been secured from the proper committee. Treas-

urer's receipt for payment must be presented to the instructor before admission to class can be granted.

Piano	\$120.00
Organ	120.00
Voice	120.00
Violin	120.00
Speech (individual lessons)	100.00
Voice (in classes)	30.00
Use of Organ, one hour daily	20.00
Use of Piano, one hour daily	10.00
Laboratory fee (for the session)	10.00
Laboratory fee (quarter course)	4.00
Breakage fee (in chemistry only)	5.00
Diploma fee (due May 1 of senior year)	5.00

Laboratory and breakage fees are paid in full in September. Other special fees are payable half in September and half on January 1.

If half-time work is permitted in any "special," the charge will be \$10.00 more for the session than half of the regular fee would be.

Terms

No student will be admitted for less than a full quarter.

No refunds of any nature are made because of the withdrawal of a student.

A student may not attend classes or take examinations until accounts have been satisfactorily adjusted with the Treasurer.

All financial obligations to this college must be met before a student can be granted a diploma, or before a transcript of record can be issued to another institution. Transcripts are sent directly to institutions except in unusual cases. There is no charge for the first transcript, but a charge of \$1.00 is made for each additional copy.

The College does not provide room and board for resi-

dent students during the Christmas vacation. The dining halls and dormitories are closed at this time.

The College exercises every precaution to protect property of students, but will not be responsible for any losses that may occur.

It is understood that upon the entrance of a student her parent or guardian accepts as final and binding the terms and regulations outlined in the catalogue.

Personal Accounts

Parents are advised to make only moderate allowances to their daughters. A comparatively small sum is needed during the opening weeks for books and supplies; these may be purchased for cash in the bookstore. The College suggests that \$25.00 or \$30.00 be brought for this purpose.

Money may be deposited in the college bank to the account of a student and is payable on her checks. No account other than the cancelled checks is kept.

Funds for books or for a student's personal account are not to be included in checks covering college fees.

In cases of protracted illness or contagious diseases, students must provide a nurse at their expense and must pay for medicines and for consultations.

Financial Assistance

Loan Funds

The income from a few special funds is available for small loans to students each year. These loans bear no interest while the student is in residence at Agnes Scott. Repayment of half of each loan is due six months after the student

leaves the college and the other half a year after leaving. Information may be obtained from the President's office.

Student Aid

Income from endowed scholarship funds is available each year for students of ability and promise who need such assistance in order to attend Agnes Scott. Applications for student aid are to be made on forms obtained from the President's office.

All recipients of student aid except those holding honor scholarships are expected to render some service in return.

Honor Scholarships

The College awards nine honor scholarships to preparatory school seniors: one scholarship of \$1,500 and three of \$900 each, divided over a four-year period; five scholarships ranging from \$100 to \$300, available for one year. Details may be secured in the fall from the Registrar.

Special Endowment Funds

THE GEORGE W. SCOTT FOUNDATION OF \$29,000. Established by trustees of the College and Decatur citizens in honor of the founder of Agnes Scott. The disposition of the fund is directed by the Board of Trustees; the income is at present applied to the maintenance of the department of philosophy.

ALUMNAE ASSOCIATION

ELEANOR N. HUTCHENS, B.A., M.A. . . . *Director of Alumnae Affairs*
AGNES WATERS SCOFIELD *Office Manager*
RUTH HUNT MORRIS, B.A. *Resident Manager and Office Assistant*
DORIS SULLIVAN, B.A. *Alumnae Representative*

ORGANIZED in 1895, the Alumnae Association of Agnes Scott College has as its purpose the promotion of its members' interest in the College and in liberal education. Its work is done under the authority of an Executive Board composed of officers, committee chairmen, and the presidents of the three nearest alumnae clubs. Branches of the Association, in the form of Agnes Scott alumnae clubs, are active in thirty-five cities.

The Alumnae Association owns and operates the Anna Young Alumnae House, which comprises the Association offices, the Silhouette Tea Room, and guest rooms for alumnae revisiting the campus. The Alumnae Office publishes *The Agnes Scott Alumnae Quarterly*, conducts the Alumnae Fund, and maintains files of information on more than 8,000 individual alumnae. Volunteer committees, under the governance of the Executive Board, carry on services including house and grounds improvement, planning of special events and entertainments, presentation of an annual career conference for students, correspondence with class and club officers, and a continuing program to make alumnae an active force in American education.

Officers for 1950 are: Mrs. Bealy Smith, president; Mrs. Fred W. Powell, Mrs. J. Louis Carter, and Mrs. Thomas E. Addison, Jr., vice-presidents; Mrs. Edward S. White, secretary; Miss Betty Medlock, treasurer.
